

I D E A B O O K S

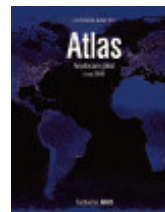

Founded in 1976 Idea Books is a specialist international distributor of books and exhibition catalogues on art, architecture, design, photography, and film. The company acts as stockholding agent for publishers, museums, galleries, (and individuals) from many countries, including the Netherlands, Spain, France, Japan, and the U.S.A.

Idea Books works with many distinguished publishers and museums such as El Croquis in Madrid, La Caixa in Barcelona, 010 Publishers in Rotterdam, and the Centre Georges Pompidou in Paris. But Idea Books is especially open to small publishers of high quality books who are looking for a committed, intensive, international distribution of their titles.

Idea Books works with representatives who visit booksellers and wholesalers in Europe, N. America, Japan, Australasia, and the Far East. It takes stands at a number of international book fairs, such as Frankfurt, the BEA Convention in the United States, and London. Order fulfilment, physical distribution, and administration, all take place at a single location in Amsterdam.

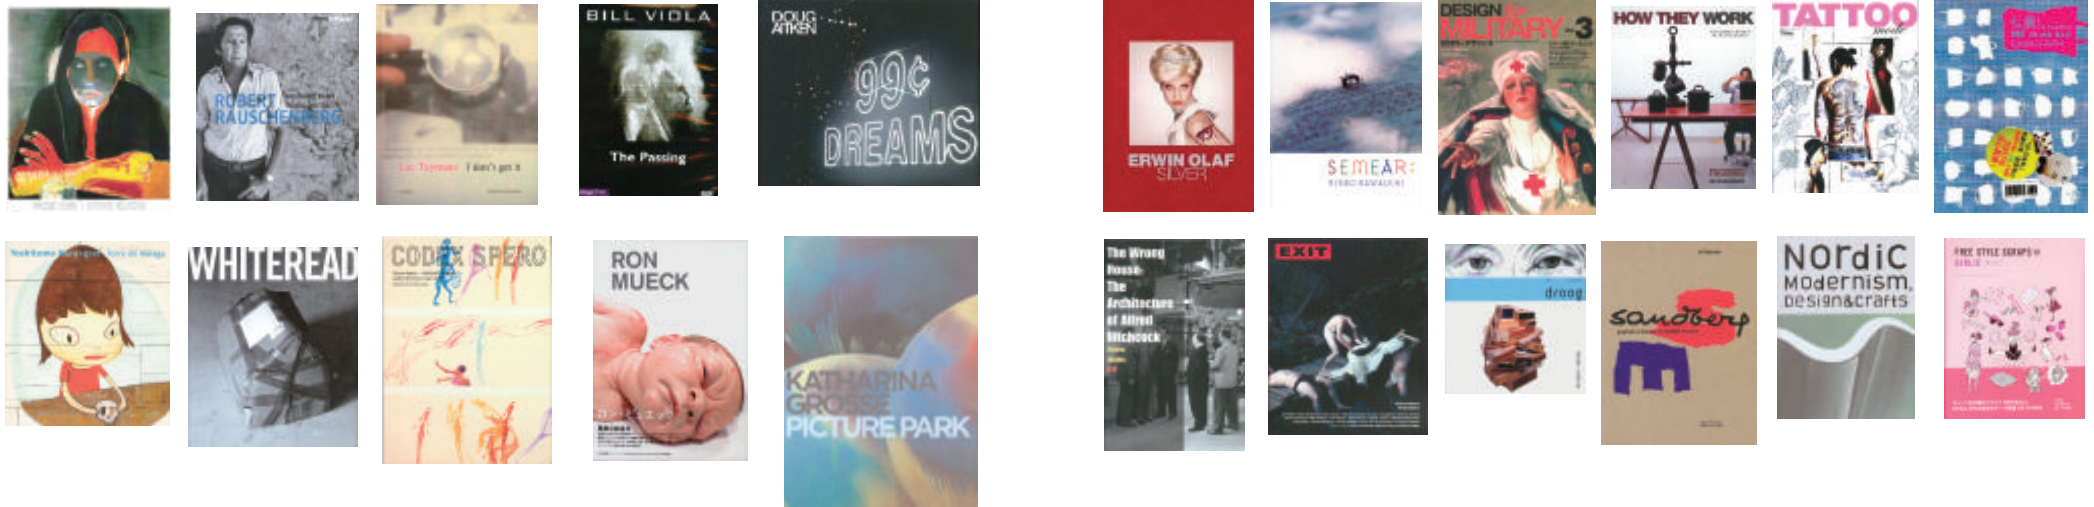

Idea Books has an active promotions and publicity department. Seasonal catalogues and individual leaflets are regularly produced and a sophisticated data base ensures that our customers receive information which is directly relevant to their specialisations. Our web-site, www.ideabooks.nl is up-dated on a daily basis.

Its location in the Netherlands, one of Europe's major distributive centres, enables it to ship cheaply and efficiently to all parts of the world.
